Inside the Property internally representative Pictures.

We also want to add properties and track those that have been assessed with no oil observed.

Currently there is just oil observed properties.

We will send you a site specific Data Management plan to keep track of all this and get RM updated so you can track all discussed above.

Let us know as you have questions or needs and if you are tracking additional information for Access or Assessment that we need to capture in a dynamic question.

Also let us know if we can start entering information for you.

Thanks.
